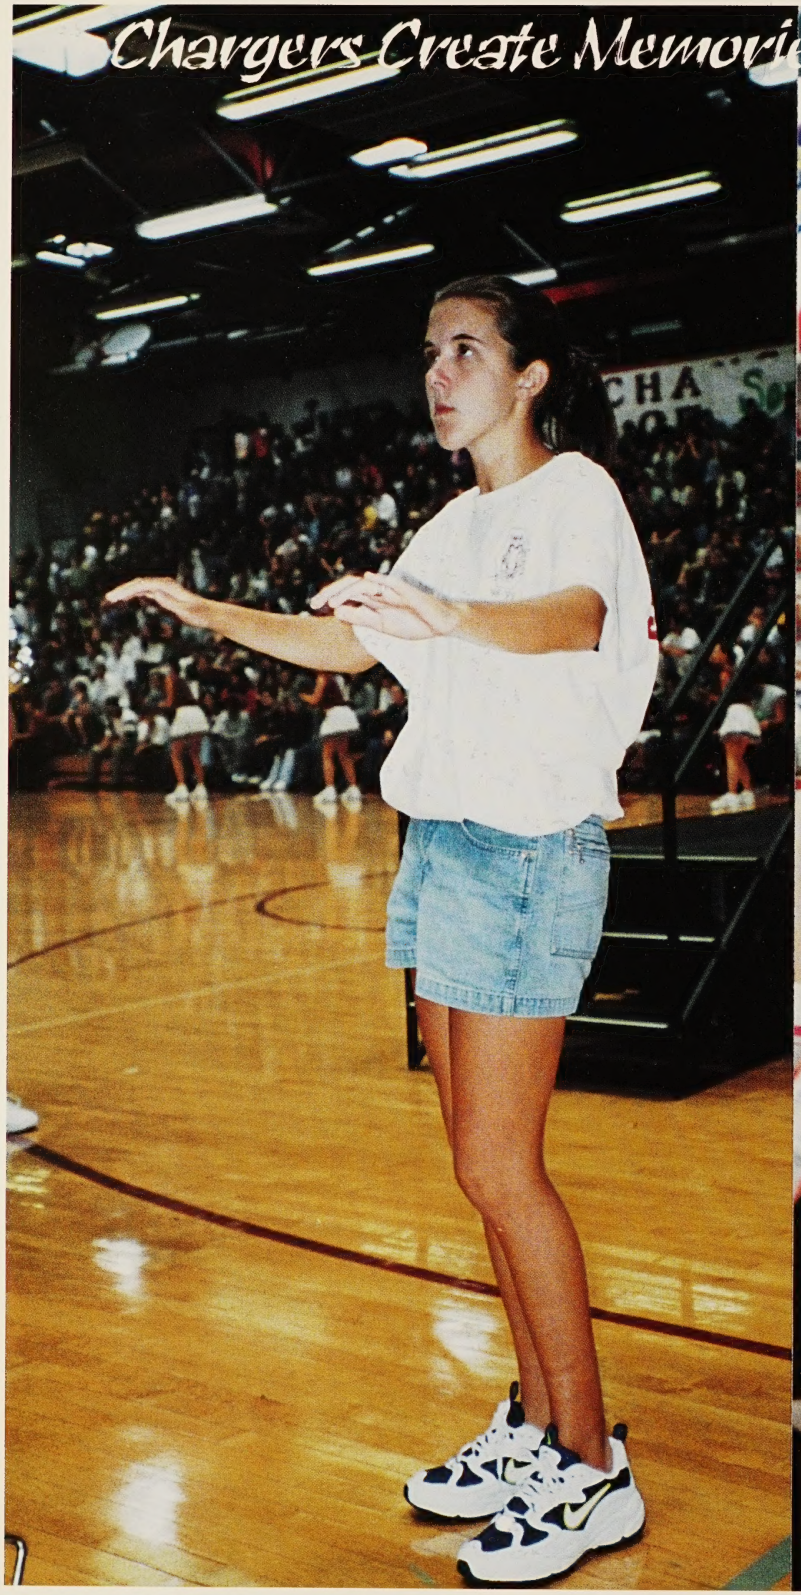
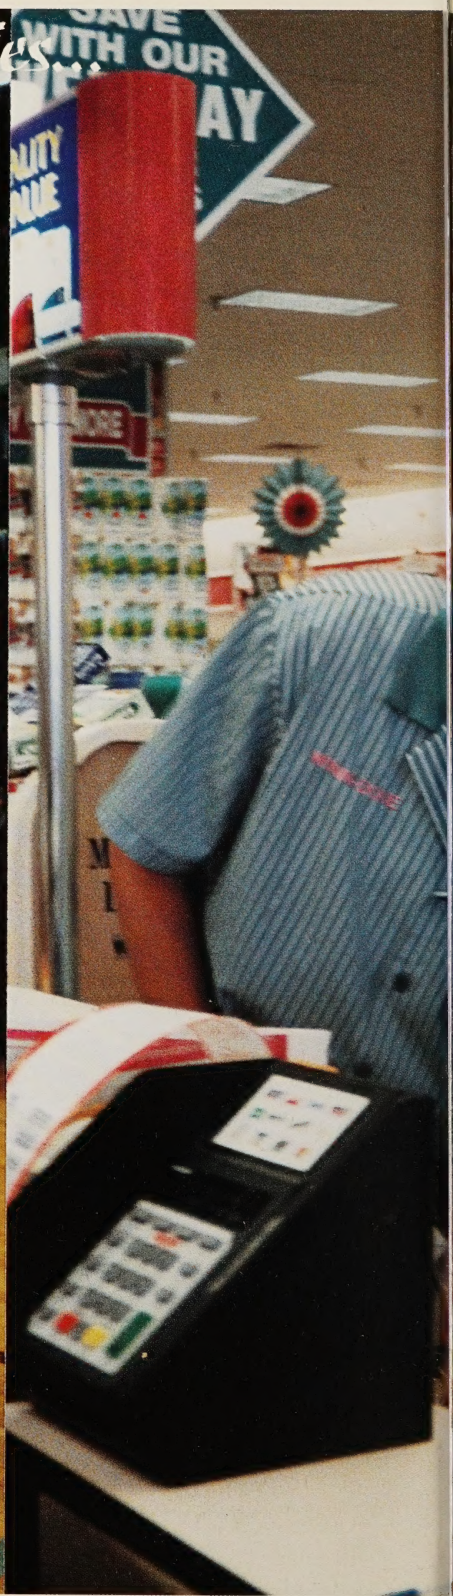
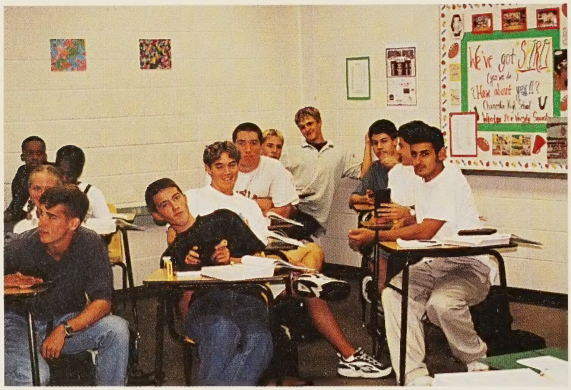
Chargers Create Memories...





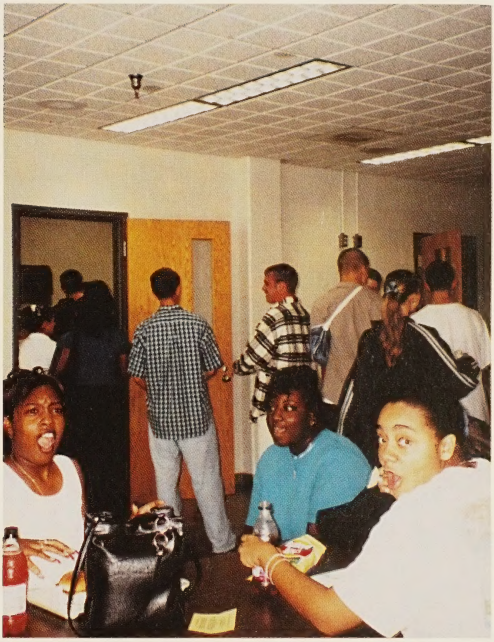
...With Lightning Speed

In the Fast Lane



The students at Chancellor are always in the fast lane. Whether they are driving, putting books in their locker so they won't miss the bell, or in a hurry to get dressed in the morning, Chargers like to "charge ahead" in the fast lane. The juniors and seniors are now often driving too fast. Some Chancellor students are in a rush because they sleep in accidentally and are trying to get to school on time, or they miss the bus and their parents have to take them to school. The main reason many Chancellor students are in the fast lane is because they're excited, enthusiastic, or just enjoying themselves. Some of them even try to beat each other through the door. No matter what the reason, students always seem to be in a hurry to get to school.

Adrienne Green, Tameka Hill, and Rita Wallace sit at lunch. Vonetta Williams is at her locker putting all of her books for her class in her book bag so she won't be late we all know how that is because we do it ourselves. Robert Figueroa and his class on the first day of school are going over the material in the student handbook. Casey Atkins and Melissa Pieski are in line to get a snack for lunch so they won't be hungry. Beverly Carter, Beth Clifton, and Chris Townsend laugh and talk during lunch, you can tell that they are having a good time. Pete Zemore and his class work hard on their challenging assignment. Chancellor Chargerettes Dance Team get ready to perform at the pep rally they are smiling and really excitited about performing. Kisha Rock is late to school on the first day and still manages to keep a beautiful smile.



Chancellor students are very dedicated to their summer activities and enjoy practicing over the summer with their friends. The cheerleaders are a great example of this as their spirit shines through as they give each other a big group hug. Chancellor students such as Shanna Wise and Lina Ciarleglio decide to make a little bit of money as they find summer jobs. Shana works at the carousel in the mall and Lina finds a perfect way to stay cool as she holds down a job at Baskin Robbins. Varsity football players such as Darnell Mitchell, Tony Foster, Joey Schroeder, Jazmin Miller, Jeff Powell, Ross Lewis, Ishmael Dade, Cory Braxton, and Sherard Lewis show how much they enjoy football practice. The Marching Band is commited to coming out and practicing the instrument that they love. The most popular summer activity is making money as Lisa Call demonstrates bagging groceries at Ukrops. Jenn Walker of the cross country team finds an interesting and cool place to sit at a running camp in California, Pennsylvania. Bobby Barnes of the varsity football team practices his punt.

The summer of 1998 heats up very fast. It is filled with practices for sports, social activities, and everyone is working very hard. There are football players practicing almost everyday in the burning heat of August in full uniform. The Marching Band also makes a commitment by coming out almost every day of their summer to practice and help improve our band. Cheerleaders turn out for their camp and practice and still manage to keep their spirit despite the heat. No matter how hot it is, it doesn't keep Chancellor students from working hard or making money over the summer. Somehow a little bit of money and doing what you enjoy can make the scorching heat of the summer a little more bearable.

Heat Lightning

Striking Excellence

All of Chancellor's teams practice really hard in the summer. For example, the field hockey teams were at the field at 7:15 in the morning to run two miles timed on the track everyday. Then, the football team would meet at 6:00 in the evening to try to stay cool after the midday scorch. The cross country team would sometimes practice at 8:00 in the morning, or 6:00 at night, just to beat the heat. On the other hand, the band takes the initiative and practices all day long, often from 8:00 in the morning to 6:00 in the evening. The girls' volleyball team practice at night, 6:00 to 9:00, during their summer vacation. Summers are valuable to all students but especially to those who utilize that time to run forty-five minutes to prepare for the meet, to drive the ball, to score a goal, or to recieve a hundred yard pass to score a touchdown. In doing this, everyone needs a water break when trying to strike excellence. So, good luck to all of Chancellor High School's fall sports teams and have an excellent season.

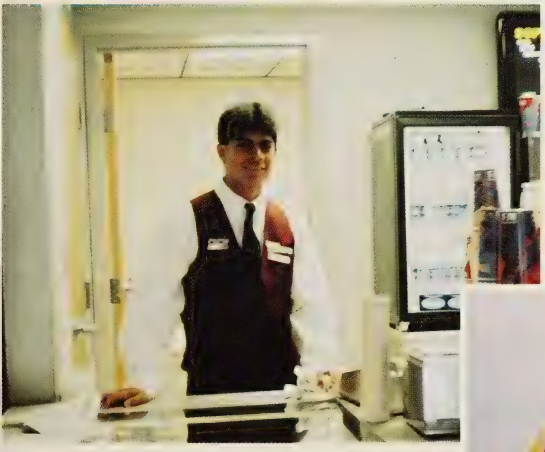
Ross Lewis, Tony Foster, Jazmin Miller, Jeff Powell, Sherard Lewis, Cory Braxton, Ishmal Dade, and Darnell Mitchell take a water break during a hard practice. Cory Braxton, a senior football player, takes a quick water break. Beth Deriggi, Stefanie Hill, Ashley Sullivan, Kristen Petros, Heather Ashton, Melinda Cole, Maureen Pfahler, and Mayumi Rich flex their muscles to show how hard they have been working to prepare for the upcoming field hockey season.

Jen Cole walks the Loriella Park trail where cross country practicesby running up hills for forty five minutes. Brandon Haney and Julian Snellings take a break after running their daily warm up. The fall cheerleadres participated at a summer cheerleading camp at Chancellor High School. Jennifer Ober and Sheena Velez do their cross country warm up run togetherin the woods. The winter cheerleaders also participated in the summer cheerleading camp. Kate Brown shows Hannah Dowell the correct way to serve the ball during tennis practice. Heather Ashton patiently awaits the ball during field hockey practice. The marching band decides to hold a practice in front of the school to get an echoing effect.

Each year many Chancellor students get jobs during the summer to earn extra money for different reasons, like car payments, socializing, and shopping. Others just like the fun that comes with a summer job and knowing that they are earning their own money.

Working with fast food is a popular job for many students, particulularly at McDonalds, Chick - Fil - A, and Subway. Several students spend their summers bagging groceries at local supermarkets such as Winn Dixie, Giant, and Ukrops.This year hundreds of new jobs opened up with the expansion of Central Park. However, what still must be the most popular single location for jobs is the Spotsylvania Mall where large department stores such as Belk, Hechts, Sears, Penneys, and Mongomery Ward offer jobs to teens. The students strive for fast accurate service to keep their customers happy and moving quickly. Quickness and accuracy are a big part of most job descriptions, and never forget that the customer is always right.

Speedy Student Workers



Daniel Almodovar enjoys spending his summer working in the mall at Belk. Amy Robbins concentrates on how to foam and steam milk for cappucinos and lattes woking at the Coffee Beanery. Stefanie Hill works hard entertaining the children that come into Funland in Central Park. Rachel Westcott catches some sun while watching the pool at Chancellor Swim Club, over the summer. Mark Manzano keeps movie goers well fed at the snack line in the movie theaters.

Mark Mason has fun putting fish in a bag for customers at his job at PetSmart. Paul Maas pushes carts in place at Giant. He also bagged groceries and put them in peoples' cars. Every year several Chancellor students get jobs bagging groceries at Ukrops. This year is no exception, Emily Folse helps Lisa Call bag her goceries at Ukrops. Tyson Reichert spends his second summer in a row as a cashier at Ukrops.

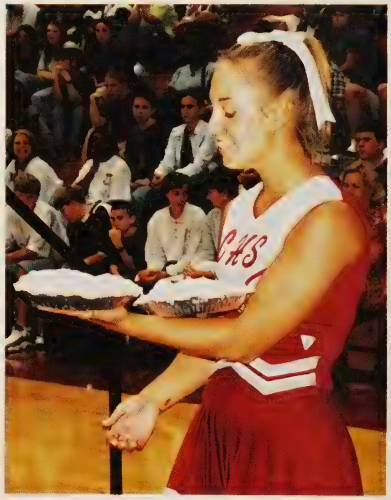
Summer Jobs, Page 11

Lightning Strikes

When lightning strikes it hits no place harder than a charger pep rally! This year we direct our electricty into our football team. The first pep rally on Sept. 11, inspires our team to beat Osbourn 28-21.

At this rally the band builds the excitment as the students walk in the door. As they play the Chargers fight song the cheerleaders really get the crowd going! Once everyone is in the gym, Mr. Moore takes control. He announces the football starters and introduces the seniors on all the fall teams.

Later in the rally pies are thrown at Mr Stableford, Mr Demarco, Mr Covert, and Robert Picariello by some of our varsity cheerleaders. The pep rally is a fun time for everyone and helps to encourage our sports teams to victory.



Ben Woomer concentrates as he plays the drums. Laura Hill hits Mr. Covert in the face with a pie as Mr. Stableford watches. Jason Martoccie, Jazmin Miller, and Paul Maas stand as their names are called out. Kari Mayercsik, Jennifer Warfield, and Tony Gardner anxiously await the next performance. Mr. Demarco is expecting a pie in the face. Angela Johnson attempts to get the crowd involved in the rally. Macon Davis, Whitney Tetor, Bobby Barnes, and Robert Picariello sit and talk as Tony Foster looks on. Laura Hill balances two pies as she approaches the teachers.The J.V. cheerleaders lift Lizzy Baker high on a pyrmid. The band is playing welcome music as the students enter the gym. Mr. Stableford licks the whipped cream off of his face. Darius Hobdy stands as his name is called.

Flash of Fashion

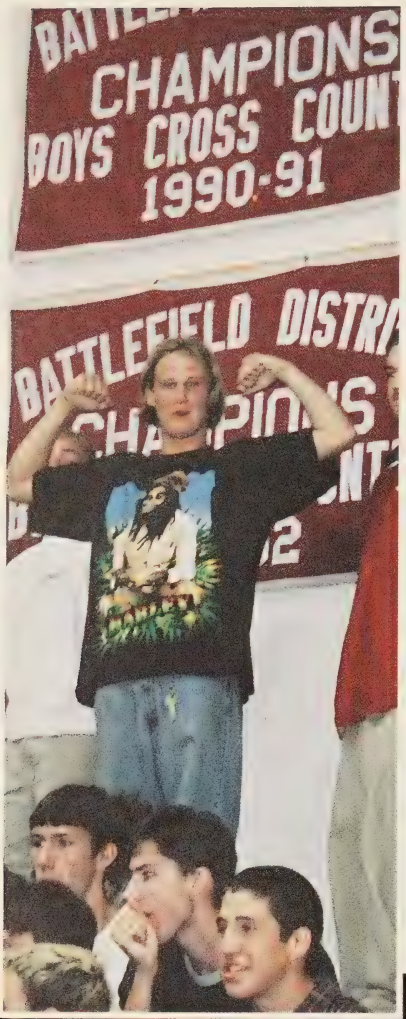
Three seniors of the Class of '99, Maggie Halloran, Dina Woroly , Julia Westcott, show off their accessorized fingers. Candace Young stops and shows us her Hemp necklace. Twelve students wear one of the most popular accessories, a watch. Julie Jennings has a unique accessory on her eye called a Bindi. Class rings are a necessity to most juniors and seniors. Meretta Rega shows us her favorite accessories, eight earings in her ear. Jessica Broadbent pulls her hair off her face with a popular accordian headband. She also has a popular wood beaded necklace. One popular style from the 70's is back called the arm bracelet. Don't tell your parents or you just might find them wearing it.

Fashion is important to most high school students, and accessories add to any outfit. Not only do you have to have the right hair style or the right clothing, now you have to have the right accessories. Chancellor students have it all: class rings, headbands, earrings, bracelets, watches, necklaces, and other jewelry. Almost every Chancellor student has a watch, probably to know when the bell will ring at 2:30. Now you have to get into the clothes you wear. Students at Chancellor seemed to like flared jeans. Chancellor is bringing the retro style back in.

The opening of Old Navy brought Old Navy fever throughout the school. Tee shirts and fleeces seemed to be the most popular among students. Showing team spirit is another fashion that every one seems to get into this year, such as tie-dyed shirts, pajamas and wacky socks. Wearing different uniforms for different sports is a major fashion, such as baseball, football, cheerleading, tennis, golf, wrestling and track. One thing is for sure about Chancellor students we have style.

Fashion, Page 15

For new teachers, the storm begins with two teacher workdays especially for them. As we merge into a new school year, we get acquainted with new students and teachers. The first week of school is always the most hectic. We try to get used to the new students and teachers that surround us. The halls are crowded as students try to find their lockers and classes. Teachers try to learn names of their students and guidance is always busy with schedule changes. The first week is special because new friends are made and old friends get to see each other after a long summer. During the first week, clubs are also being formed while electing their new officers. First week activities include, the Pep Rally, the Back to School dance, assemblies, and underclassmen photos. We hope this year will be as successful as last year.



The Storm Begins

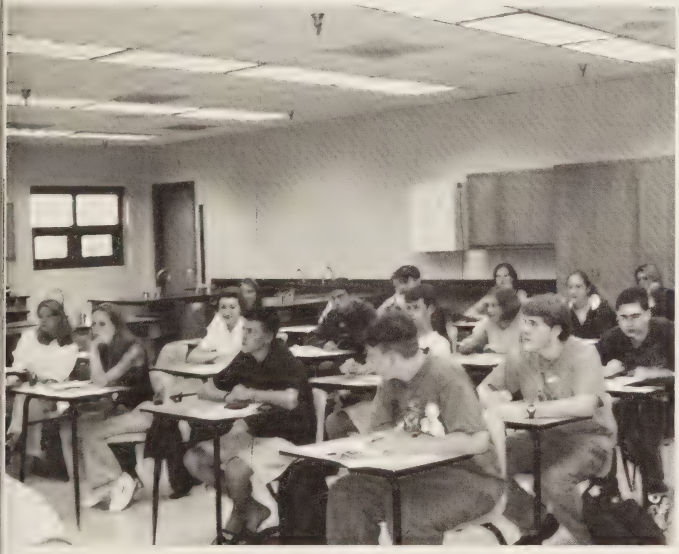
Senior Scott Sullivan shows his school spirit at the Pep Rally. Kimberly Perkins, Julia Westcott, Dina Worley, and Rachel Westcott return to their classes from the Senior Assembly. Carthell Maple enjoys lunch with his friends. Seniors cheer on their friends at the Pep Rally. Students hurry to class, trying not to be tardy. Ishmael Dade waits patiently to get his picture taken. Caleb Reed and Tiffany Sturgill get off the bus from Governor's School. Joe Swink and Amy Schleigh enjoy a slow dance together at the Back to School dance.

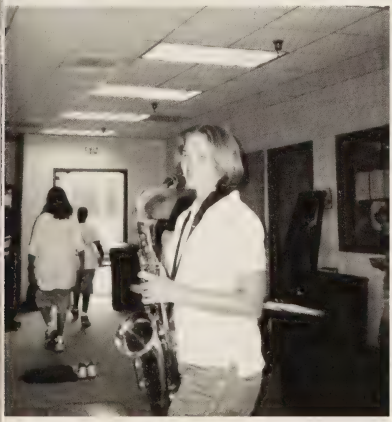
Lightning Charge

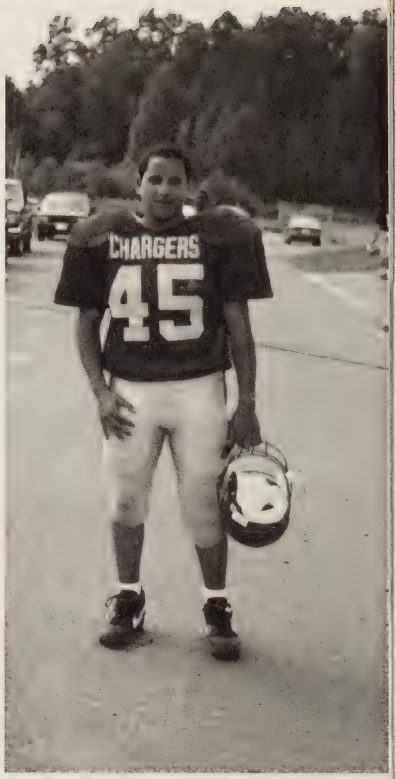
Daniel Almodovar, Paul Maas, and James Howard hang out at the mall. Maggie Halloran, Shanna Wise, and Julie Klein laugh over a letter. Ben Woomer and Shannon King dance at the Back to School Dance. The Hotspur soccer team runs at practice. As the signal is given, members of the track team takes off *with lightning speed*. Students sit prepared for the first day of school. Meghan Wolf practices her saxophone. Meaghan Young and Erin Kotowski pause from their shopping. The dance team dances at the first pep rally. The field hockey team takes a break from practice.

Whether they are at school, practice, or just hanging out, Chancellor students are always having fun. After a full day of school, students enjoy going to sports practices, club meetings, band practices, or just sitting outside the school. On Fridays they might go to a pep rally, dance, or game. One thing is for sure, over the weekend most students go to the mall at least once to be with their friends. Others may go to Slapshots to skate or Planet Fun to bowl and play pool. Some like to go to the movies and others like to go to Funland to play games.

But it is not all fun and games. Most of the students have homework and some even have a part time job. Sophmore Jennifer Steele says that she usually babysits five hours a day, Monday thru Friday. Freshman Kate Brown says she has about one and a half hours of homework a night and senior Joanna Kim says she has even had seven. Senior Sean Healey says that he usually works about eighteen hours a week. Even though much of the students' time is spent having fun, there is work involved as well.





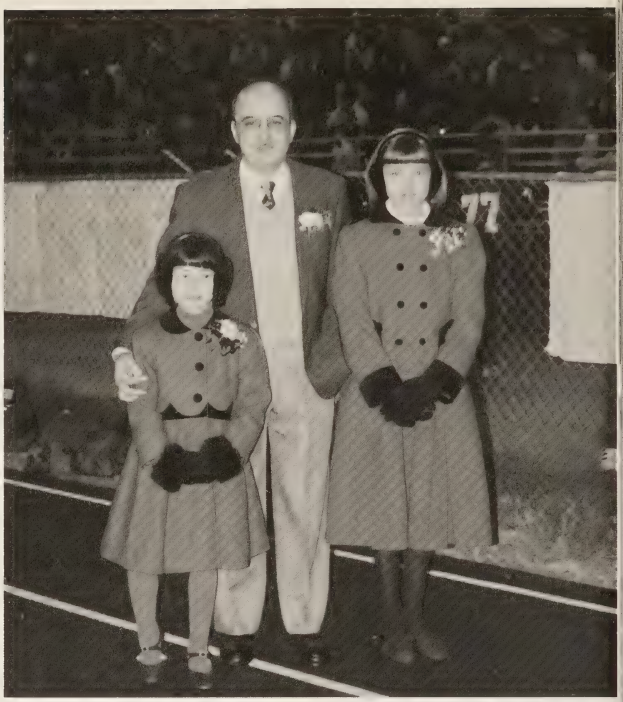


There are many new faces at Chancellor this year. The class of 2002 has over 380 students. Many of these faces seem overwhelmed on the first day of school, but by the end of the first week, they let go of their fears and enjoy being in high school. The freshmen and new students enjoy participating in activities such as sports teams, clubs, pep rallies, and dances. They learn that high school is not about being in the classroom but making new friends and getting involved in new things. The old faces at Chancellor are always ready to help someone whether it is to find their locker or their class. That usually puts a smile on these new faces. There are several new teachers at Chancellor this year. They add to the flashes of new faces in the halls. The faculty and student body at Chancellor help all the freshmen, new students, and new staff to feel welcome.

New Faces, Page 20

Flashes of New Faces

There are several new members of the Charger's faculty this year. They are Mr. Richard Byrne, Ms. Sandra Broaddus, Mrs. Norma Hanlin, Miss Jennifer Stocks, Miss Karla James, Mr. Brian Gebhardt, Mr. Dan Girard, Deputy Rick Watson, Ms. Melanie Coleman, Ms. Tangela Wallace, Mr. Eric Wright, and Mrs. Cathy Phillips. Ashley Russi and her classmates hang their work in hall. Shelby Fredo and Ashley Fines enjoy learning about Chancellor at the freshmen orientation. The freshmen section anxiously awaits the next performance at the first pep rally. Ashley Iglesias, Tara Painter, Megan Hoile, Lindsey Neeld, and Holly Mullin show that freshmen have school spirit at cheerleading practice. Students read their handbooks. Alex Pena gets ready for practice.



Homecoming week focuses on spirit. The flashes of spirit you see during that week range from the Bonfire to the Homecoming game.

As you look down the halls during that week you are able see students getting excited over their dates and new dresses, nominees for homecoming court nervously waiting to hear who the winners are, and all the students dressing up for the spirited days. During half time at the game you are able to see flashes of spirit drive during our parade. Any club or orginization can make a float to show off their charger pride. It is during the parade where we await the homecoming court and the new king and queen.

Flashes of Spirit during Homecoming

James Shugart, Matt Johnson and Robert Picariello show their spirit at the pep rally. Cortney Deihr, Shanna Wise, Marion Brothers show off their fashion for clash day, crazy hair day and Caribbean day. Amanda Rollins plays in the band during the pep rally. The winning score of the game was 41-7

Strikingly Beautiful

Our theme for this year's homecoming was "Crusing the Caribbean." Decorations this year were done by SCA and the help of Kelley Drake, Rose Rutherford and other members of the National Art Honor Society who did a beautiful job on the floating mermaids.

The "98" Homecoming Court Seniors include: Cheryl Carter , Jimmy Heflin, Kelly Eckert, Greg Medsker, Megan Monteith, Scott Marker, Nicole Musselman, Julia Westcott, Patrick Patterson. Juniors include: Sarah Wright, Shane Richardson, Arlene Rodriguez, Jason Carter. Sophomores include: Justin Aguilar, Kassia Lardie, Brian Hinkle, Katie Lapp. Freshmen include Jennifer Barrow, Robbie Ibanez, Timia Mickens and Casey Drewry. The beautiful queen was Julia Westcott and the handsome king was Macon Davis. Hundreds of student's and their guests attended the dance and had a blast. The football game along with the parade was also a big hit A big thanks to everyone for being safe during Homecoming.

Electrifying Classes

Chancellor High School vocational students work on their clay animation projects for Radio and Television Production. Crystal Stannard, a sophomore, bends a piece of metal in her Metal Trades class. Jeff Powell, a senior, designs his model on the computer before drawing it. Sean Bicknell works with his sheet of metal. Senior Tim Thompson measures a piece of wood carefully in Masonry. Brian Wheeler sits next to the electrical equipment for his Electronics class. Crystal Penland operates the video camera for her Radio and Television Production class. Brooke Verdow takes Becky Roberts' blood pressure in their Practical Nursing class. Daryl Peterson, a drafting student works at his computer.

Chancellor students have the opportunity to take *electrifying* classes at the Spotsylvania Vocational Center. Students learn different trades in classes like Air Conditioning and Refrigeration, Drafting, Graphic Communications, and Radio and Television Production. Other classes, such as Auto Body and Auto Mechanics, help people speed through life *with lightning speed*.

Electricity plays a big role in all of these classes, especially Electricity and Electronics. Electrical instruments are used everyday in to help students learn their trade. Students work on electrical circuits, car batteries, and the AutoCAD. In Radio and Television Production, the camera is a major part of the class. Without electricity, these opportunities would not be available for anyone.

Other classes are offered at the Spotsylvania Vocational Center that do not focus on electricity, but use it. These classes include Carpentry, Cosmetology, Culinary Arts, Dental Careers, Masonry, Metal Trades, and Practical Nursing. Even though these classes are not focused on electricity, electricity keeps the classes running. In fact, the whole vocational center runs on electricity!

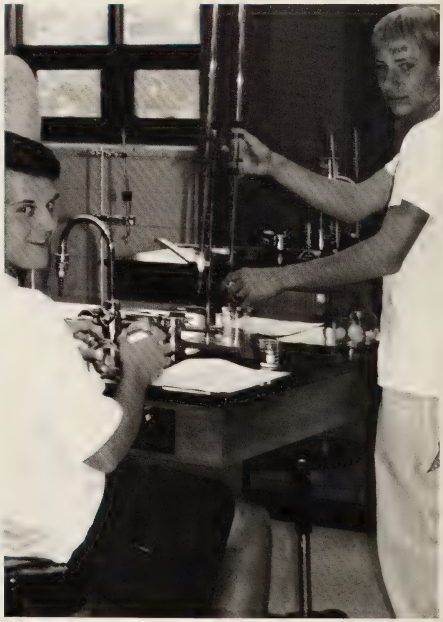
Students Creating Shockwaves

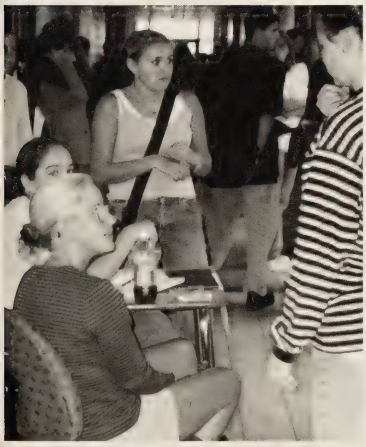
Sisters Stephanie and Christine Leake,smile because they know that school is beginning. Elizabeth Baker walks past our many trophies, which are displayed in the lobby here at Chancellor. Patrick Patterson and Lina Ciarleglio work together to get the poster done for SCA. A group of juniors sit and talk about their busy day while some Chancellor students relax outside of the lunchroom. Miss Burgess's fifth period Math Analysis students pull out their graphing calculators and anxiously start their work. Sara Johnston and Gretchen Harwich collect dues for the club Students Against Drunk Driving, while Erik Koenig and Matt Baker have fun playing with chemicals in AP Chemistry. Seniors April Merrit and Heather Ashton help out with Homecoming banners.

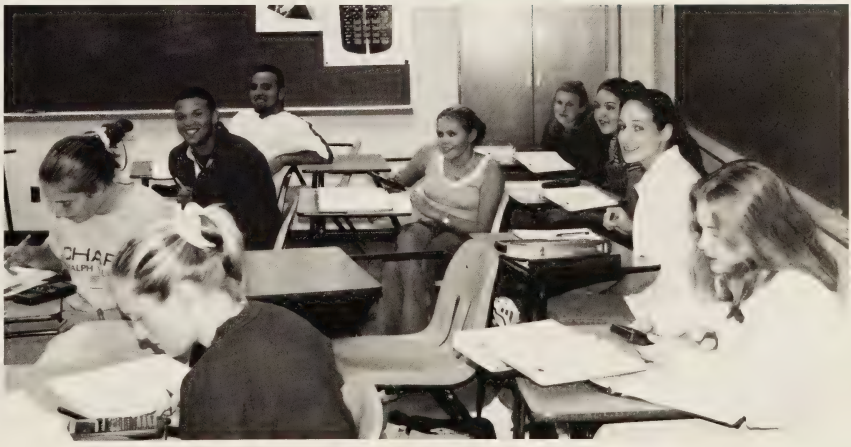


Chancellor High School students' actions create shockwaves throughout our school. Whether they are just hanging out, talking to friends during lunch, or working diligently on Homecoming activities, students leave lasting effects on Chancellor High School. Without students, where would all the excitment be? What would the teachers do? There wouldn't be a Chancellor High School in existence. Students create shockwaves just by being here!

Every student here at Chancellor has an opportunity to make a positive impact on the school. There are several clubs and organizations at Chancellor and they are all open to most students. Many students can make a positive impact through the sports at our school. Also, students' academic achievements affect our school and its' reputation.

Though students often are busy with work or other non-scholastic activities, they always manage to find time to make Chancellor High a better place.



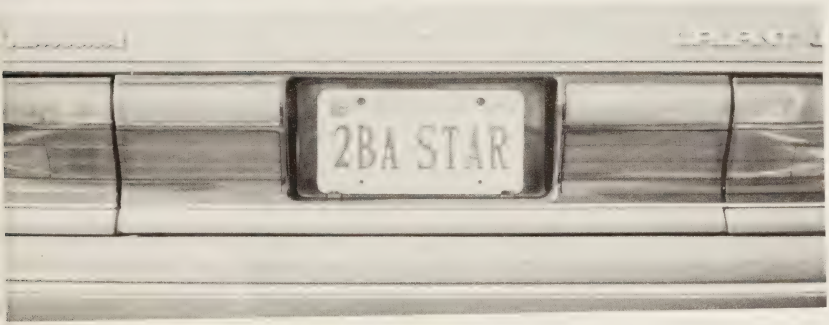


Cruise Control

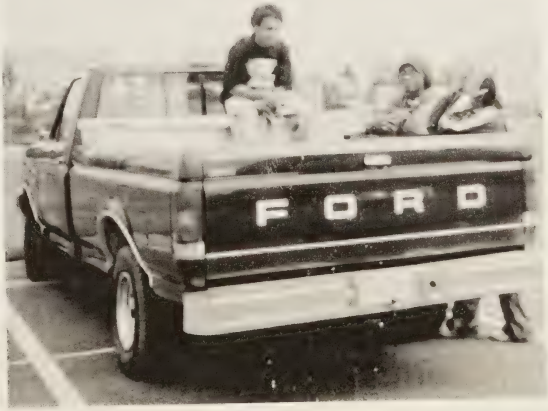
"Cruise Control," is dedicated to all the drivers at Chancellor High School. To many students driving is the doorway from childhood to adulthood, when mommy finally lets her baby free. For a teenager responsibility comes along with a drivers license. Students learn to follow the rules in order to keep the privilege of driving to school. Of course, it is fun to be able to drive free with the wind blowing through your hair and the radio playing your tunes, so it's worth it!

It all starts when you go get your permit and mom and dad take you to the good old parking lot to practice. Then comes the day when you sign-up for behind the wheel. You finally get the chance to drive on the open road, while the other drivers see the "student driver," sign and run for their lives.

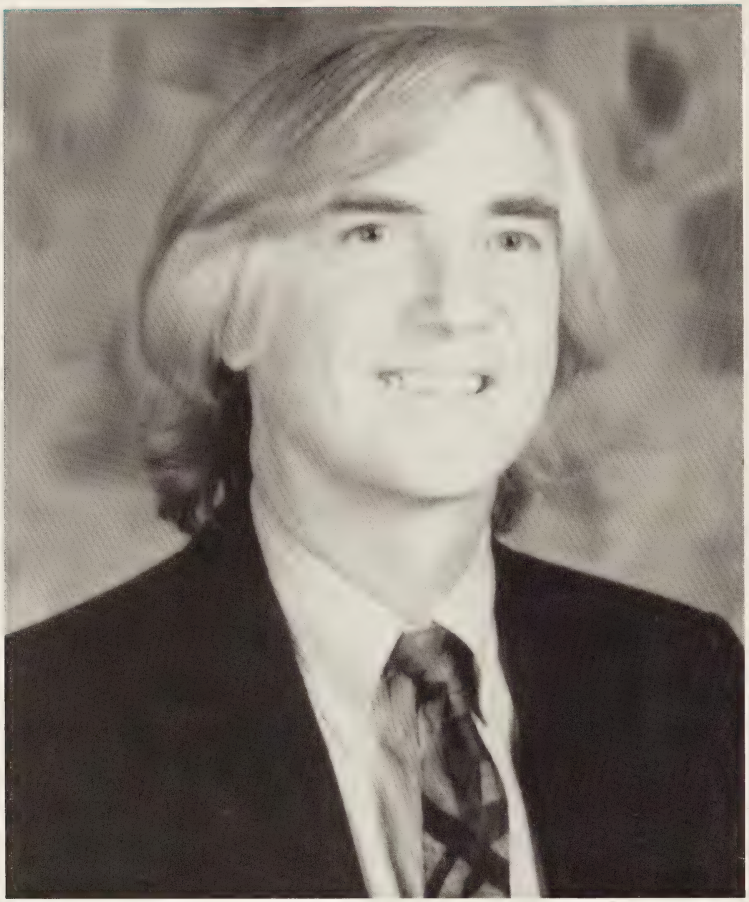
The day is here, you now have the one thing that you have wanted ever since you were a kid and watched "Knight Rider," or "Herbie the Love Bug" the driver's license. Now is the time when dad hands over the keys. So for all of the upcoming drivers, remember responsibility and dedication is all you need, so everyone buckle-up and drive safely. And remember, watch out Mr. Covert is on the look out. Happy driving to all and to all a good night!



Robert and Brian Barnes hurry to football practice. Shanna Wise and Nichole Gibson smile as they leave. It seems that Chancellor students smile more when they are leaving the school's parking lot than they do when they arrive. April Merritt and Anthony Marchegiano leave school after a hard day of work, work and more work. "To be a star" is a good motto for a personalized license plate. Danny Jones and friends wait patiently to leave the parking lot. Kristin Johnson and Bradely Medely say goodbye. Derry Gordon, Felicia Randolph, and Charles Russell talk about thier day. Jon Ringuette anxiously gets in his car to go home and start his homework.



The Academic Section is dedicated to our dear friend and teacher, Mr. Jerry Lee Pritchett.



Mr. Pritchett, a 1968 graduate of Spotsylvania High School and a 1972 graduate of Randolph Macon College, taught English at area high schools before starting the Drama Department here at Chancellor High School. He also coached football and basketball for local schools. These accomplishments earned him the prestigious title of Spotsylvania County's Teacher of the Year in 1995, as well as many other awards. Outside his school life, he worked for The Fredericksburg Theatre Company for seven years. He was also its technical director for four years. He was a musician and also the founder of the acoustic vocal group, Sundown. Mr. Pritchett had been with Chancellor since day one, and was greatly favored by his students as well as his fellow colleagues. Mr. Pritchett will always be remembered and appreciated at Chancellor.

March 15, 1950 - September 20, 1998

Mr. John R. Marra, Jr.
Principal

Through his eleven years at Chancellor High School, Mr. John Marra has seen many changes. He believes most have been very positive for the school.

Regarding the 1998-1999 school year, Mr. Marra thinks the most positive change has been the decrease in enrollment. The population of Chancellor High School has gone from 1700 students to 1350 students. Mr. Marra believes the result has been a more positive school climate.

Mr. Marra has many goals for the future of our school. All of his goals center around the concept of school improvement. It is Mr. Marra's hope that as we enter our second decade at Chancellor High School, we will dwell on the positives of the first ten years which will lead us into school improvement for our second decade.

Assistant Principals

Mr. Marra is assisted this year by Mr. Hall, Mrs. Bass-Fortune, Mr. Covert, and Mr. Byrne. Mrs. Bass-Fortune escorts a student to the office. Mr. Covert looks at awards in the office won by Chancellor students.

The class of 2001 is a very special class filled with many determined students and teachers. One of those teachers is the very hard working and dedicated sophomore sponsor, Mrs. Mattson. She works with a board of about 30 sophomores who all express their opinions. To be in this position you must have patience and an open mind. Various members of the board say that Mrs. Mattson is a very organized and dedicated sponsor. The amazing thing is that Mrs. Mattson is also an Advanced Biology and Biology teacher who has obligations in her classes. She still finds time to help run the Sophmore Class Board. One of her duties and the sophomores' duties is to create the class banner that you see hanging on the wall near the main staircase. If the sophmore class board and sponsor keep their dedication, the sophomore class will successfully charge into the new century.

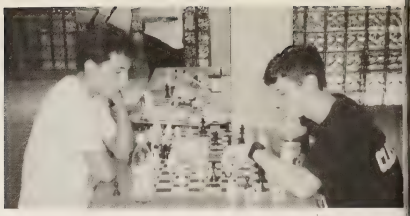
Clubs and Organizations



This year at Chancellor High we have 40 school sponsored clubs and organizations. These organizations do a great job of getting CHS students involved in our school and community.

One of Chancellor's Seniors, Courtney McFeely, helps create a spirited wall during our homecoming week. Two students challenging their minds to a tough game of chess are Charles Barnes and William Higgins. Chancellor's Dance Drill team does a great job of performing for the classes at our first pep rally of the year. The Chorus performed at the White House this year. Senior, Lauren Nogueira and crew, show their spirit on their Latin Club float during the homecoming parade. Krystal Clark, Jason Walters, Kerri Rothell, Ashley Fines, Sarah Messmore work on a wall for their club. This year the SADD float was great. Riding on the float were the Crash Test Dummies, Rachael Knowles, Kirsten Felsted, Ashley Cinnalli, and Will Dunn. Our LRMB is our largest organization here at Chancellor High School. They have continued their tradition of excellence throughout this year. They are simply unbelievable!

Inter Club Council

The ICC is made up of the presidents and vice presidents from each club and organization. Mrs. Garfield is the ICC sponser.

They also sponsor Homecoming and the canned food drive. Heather Palmieri dances at the Back to School Dance. Beth DeRiggi and Stefanie Hill have a great time at Homecoming. Brian Barnes and Craig Brown look for friends at the Bonfire.

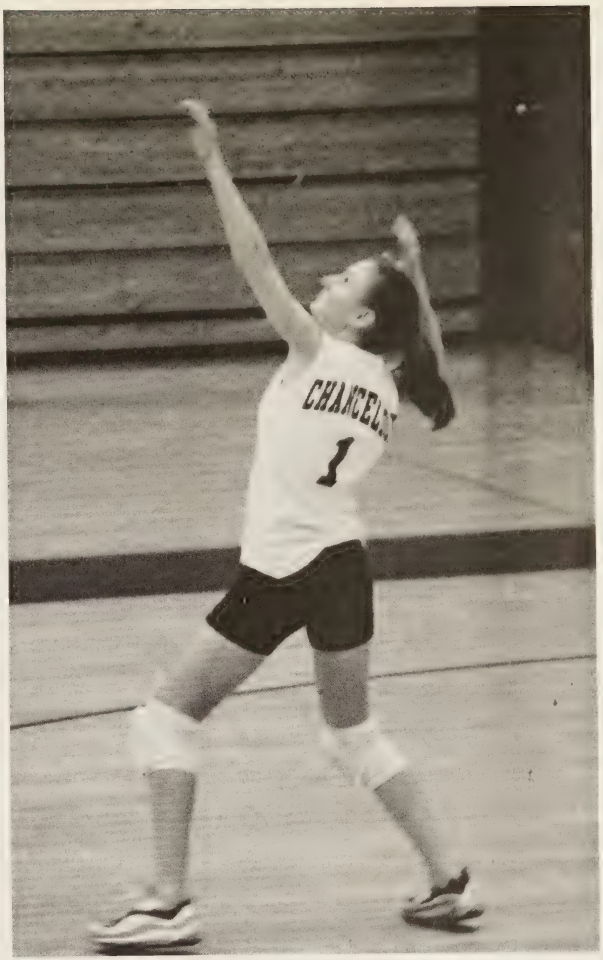
Sports



Once again here at Chancellor High School we dominate in athletic competitions, since having a winning record is not uncommon for teams here. The students who represent the Chargers at their athletic events are the best of the best. These students work hard to keep their grades up and to be the best at their sport. For this reason we would like to dedicate the Sports section of the Yearbook to these hard working athletes.

This year our cheerleading squads did outstanding at the summer camp. Being led by Jennifer Walker, Jennifer Cole, and Tamela Berry, the cross country girls jump out to an early lead. Dana Jones returns a crushing serve. Senior Brendan Brody crosses the finish line after a long tiring cross country meet. Senior captain, Casey Woodard, lobs the ball to prepare to smack it across the net. Casey also led the girls volleyball team to the State Semi-final game. John Harrington warms up for the first swim meet in Charger history. Senior, Michael Nissim-Sabat, dribbles the ball up the court for the Chargers. Defensive end, Joey Kimble, waits for the ball to be snapped before making his charge on the opposing quarterback. Tyler Jeffords picks up his opponent and prepares to pin him.

Gordon,

Always carry our love in your heart and respect others as you want them to respect you. Never be selfish, as God shall reward you. Grow to be a man with pride, but never be ashamed to admit the times when you are wrong, and never be ashamed to accept reward when credit is due. Most of all, you can't be or do anything if not for God, because without him, you wouldn't exist! Nothing comes from nothing or nothing ever could.

We love you,
Mom and Dad and Jordon

With the Lord as your Shepherd
You have all that you need
For, if you follow in His footsteps
wherever He may lead,
He will guard and guide and keep you
In His loving, watchful care
And, when traveling in dark valleys,
Your Shepherd will be there...
His goodness is unfailing
His kindness knows no end,
For the Lord is a good Shepherd
On whom you can depend...
So, when your heart is troubled,
You'll find quiet peace and calm
If you open up the Bible
And just read this treasured Psalm.

Congratulations, Toni,

If you can keep your head when all about you,
Are losing theirs...
If you can trust yourself when all people doubt you, If you can dream...
If you can think...
If you can meet with Triumph and disaster and treat those two impostors the same
If you can watch the things you gave your life to, broken, and stoop and build 'em up...
Yours is the earth and everything that's in it.

It was just a moment ago that you took your first step. You've been running towards your future ever since.
It seems like just yesterday when you held our hands to cross the street. Now a long, long road awaits you. Your lifelong adventure is about to begin.
So many years have flown past. We never took our eyes off you. When did you grow up?
The little boy we've nursed through earaches is so very close to being a man. How can it be?
We can't believe you won't be right here with us forever, but you will always fill our hearts.
We love you, Roger. We are very proud of the sensitive, caring young man you have become.
Unleash those talents and dazzle the world!
Always remember how much we cherish every memory of all the "yous" you've ben so far!

Have a wonderful, happy future!
Follow your dreams!

Challenges 1999 Seniors

We say good-bye this year to six graduating seniors: Heather Ochs, Katie Johnson, Tracy Mannion, Katie Summers, Sharon Brown, and Brandon McKinney. These students represent twelve years of hard work for Chancellor's yearbook. Four of them are editors and devote a minimum of two and a half hours a day, five days a week, to the organization and production of *Challenges*.

It has been my pleasure to have worked with all of you and the dozens of other yearbook staffers from the past eleven years, and I count myself lucky to have such a dedicated senior staff on this, my last year as yearbook sponsor.

Best of luck with your futures!
Love,
Mrs. G

The *Challenges* Colophon

The theme for the 98-99 school year is "With Lightning Speed". This ties in with our mascot, the Charger, and it shows how time passes quickly as this century comes to an end.

This year's staff is made up of 15 students. Six seniors will be leaving the staff this year: Sharon Brown, Staff Editor; Katie Johnson, Tracy Mannion, Copy Editor; Brandon McKinney, Photography Editor; Heather Ochs, and Katie Summers, Layout Editor. Our underclassmen are: Thanisha Britt, Rosie Canizares, Travis Dossett, Sarah Fulton, Angela Johnson, Heather Jones, Kelly Quann, Crystal Sampson, and Sarah Wright.

Mrs. Gordon has been the yearbook sponsor at Chancellor for eleven years. She has been very dedicated to helping make a memorable yearbook for Chancellor. Thank you Mrs. G for everything you've done. We're going to miss you!

Our yearbook is published by Jostens in Winston-Salem, N.C., with Jay Hollis as our sales representative and our new facility service rep., John Fletcher. This is our eleventh year with Jostens. We received yearbook t-shirts from Jostens this year. The staff wore them on club picture day and at a computer workshop.

Our book is in a trim of 8 1/2 x 11, and due to our tremendous senior tribute sales, our book has increased to 256 pages, 12 more pages than last year. A 20-page spring supplement is also produced and handed out on the first day of school.

There is much more to being on the staff than producing a 276 page yearbook. We take roughly 3000 pictures, sell ads and tributes, assist in taking class and club pictures, edit senior quotes, and collect club and sport rosters. We participate in Homecoming activities and donate to several different charities throughout the year.

We continued to be devoted to technology by fundraising to buy four more computers and one more printer. This year the staff completed the entire book using a computer software program. There are stressful times, but we still manage to get together and have fun.
